■ PERSUASION AS A STRATEGY FOR ATTITUDE CHANGE

- ▶ TARGET → bir insar veya insar grubu olabilir, fikirler olabilir

PERSUASION STRATEGY

► COMMUNICATOR

- Being an expert in the area
- Reliable/trustworthy
- Experience
- Good communication skills
- Being liked or disliked
- Acting in an objective manner
- The presentable look

PERSUASION STRATEGY

FESTINGER'S COGNITIVE DISSONANCE THEORY

- ▶ Festinger is the first one who has drawn attention to the point that behavior also influences attitudes as well as attitudes influence behavior.
- ▶ Dissonance: inconsistencies in between cognitions, feelings and behavior sigaranın zararlı olduğunu bile içmek gibi
- ▶ Compliance
- ▶ No relation

FESTINGER'S COGNITIVE DISSONANCE THEORY

The ways of decreasing the dissonance among cognitions:

- ▶ The individual alters his behavior. örneğin sigaranın zararlarıyla ilgili yeterince şey öğrenirsek bırakmaya karar veririz gibi, ama zor bizi bu
- ▶ The individual changes his cognitions (opinion or point of view). çok kanser hastası var ama hepsi sigara yüzünden mi ki diye düşünmek, bakış açısını değiştirmek
- ▶ The individual adds new cognitions in order to abolish the dissonance. kendi salak fikirlerini destekleyecek şeyler bulmak, sigaranın zararlarının abartıldığını söyleyen salak bi facebook yazısı veya "6040 kanser hastasının sigara yüzünden olmadığını gösteren bi araştırma okumak gibi kendi vicdanını rahatlatıyorsun aslında

PREPARATION OF A SCALE

- THE PURPOSE
- THE TYPE OF SCALE
- CHOOSING THE STATEMENTS
- CHOOSING THE TYPE OF RESPONDING
 - Open-ended/Closed-ended questions
 - Multiple choice questions
 - Leading questions
 - Demographic questions
- THE ATMOSPHERE
- EVALUATION OF THE SCALE

PREPARATION OF A SCALE: AN EXAMPLE

- ▶ The Purpose: To measure White collar workers' attitude toward the job.
- ▶ The Type of Scale: 4 point Likert type of scale
 - ▶ 4(completely true), 3(true), 2(wrong), 1 (totally wrong)
- ▶ Choosing the Statements (Items):
 - ▶ The task I'm involved is rather boring.
 - ▶ I gotta a feeling that I gain new competences when I do my job.
 - ▶ The task I deal with is challenging.
 - ▶ What I do on the job requires team work.
 - ▶ I can use all my potential while I do my job.

PREPARATION OF A SCALE: AN EXAMPLE

- ▶ The Atmosphere of the Application of Scale: The questionnaire will be delivered to White collar workers in several companies in service sector. While the questionnaire forms are delivered, the aim of the study should be explained clearly to all workers to gain their confidence so that they will respond truly and honestly without any doubt that the individual responses are confidential and used for only research matter. The time the items are responded by the workers, there should be no one around representing management so that they answer the items freely and truly.

DIRECTIONS
